Affidavit of Arrears Instructions

This affidavit will be used to determine the amount of support arrears owed. An affidavit is a statement made under oath for use in legal proceedings. It is important to complete the form fully and accurately.

1. Start with the year and month support was ordered.
2. End with the last or most recent month support was due.
3. In the Amount Due column only include the support obligation (i.e. monthly amount due), do not include any required payment on arrears or other expenses (such as child care, medical, etc.). Spousal support should be included in this column if ordered.
4. The Amount Paid column should include any money received from the non-custodial parent for child and/or spousal support. Include payments made directly to you or made through a support agency or court. Do not include payments not intended as support, such as gifts, payments to maintain property, etc.
5. The Balance column should reflect the difference between the Amount Due and Amount Paid. For example, if the Amount Due is \$300 and the Amount Paid is \$150, the Balance will be \$150.
6. The Total column should reflect the balance due for the year.
7. The "total amount" entered at the bottom of the affidavit should reflect the total balance due for all years listed, after crediting all amounts paid.
8. If completing an affidavit covering a time period of more than six years, attach additional sheets as needed but only complete the bottom portion of the final sheet.
9. The affidavit must be signed and notarized.
